WESTSTAFF OUTSOURCED PROJECTS

At Weststaff it's our business to understand and provide all the requirements of Human Resource Management. That is why we provide on site service, ideal for clients who rely on high levels of outsourcing but want to find more efficient ways of managing their on hire workforce levels, without being distracted from their core responsibilities.

We also supply customer specific, on-location management programs, for clients with large workforce staffing needs. In doing so, Weststaff are able to assist clients with staff planning and scheduling, which is particularly important for businesses operating a production facility where excess staff mean unnecessary costs.

We design and implement tailored on-site services for each location.

Another reason why Weststaff is a leader when it comes to providing Human Resource Management solutions, is our comprehensive payroll outsourcing service - Payroll Plus. This service is ideal for clients who presently operate inefficient, time consuming systems or wish to eliminate high payroll administration costs and extensive statutory record keeping.
